ARMY REORGANIZATION.

Miles Designates Troops For Cuba and Porto Rico.

Washington, Sept. 22.-Major General Miles, commanding the army, has completed his plan for the reorganization of the volunteer forces into corps, divisions and brigades. This plan has been submitted to the war department for approval. The plan contemplates a reorganization of the volunteer force which has not been ordered mustered out and designate an extra of corp. out, and designates an army of occu-pation for Cuba, provides for the re-lief of the army in Porto Rico, and establishes a reserve of relief troops in the various islands which will be oc-cupied by the United States.

It is known that the troops of the Seventh curps, now under General Lee, will be designated to go to Cuba, and that the troops from the camps at Lexington, Knoxville and Middletown will be selected for Cuba. It is under-stood that General Miles deals only with organizations, such as corps, di-visions, brigades and regiments. The matter of commanding and staff officers will be settled after the muster-ing out of general and staff officers has

These industries are now boing heard from in a very emphatic way. this intervention of the military authorities in a civil court.

At the present moment, when the political atmosphere is surcharged with dangerous electricity, generated by the Dreyfus affair, the general, who has just quitted the cabinet, in defiance of civil authority takes, without consulting his successor or the premier, an important step. In ordinary circumstances the military governor is empowered to act independently; but now that the Dreyfus question has become a great national matter, every proceeding in the affair has state importance.

General Zurlinden's ignoring of this obvious fact is very significant. He comes forward as the defender of the army, the prosecutor of its supposed calumniators and the resolute opponent of a revision of the case. From this to an appeal to the public in the line of an establishment of a dictatorship there is no wide step.

A GROWING CITY'S FOLLY.

The waterworks committee last evening put a veto on any more extensions of small-sized mains. To fill a requisition of the water department for a carload of six-inch and a car of four-inch pipe, bids are now invited, but the committee declared that the order will be for six-inch pipe. City Engineer Kelsey called the committees attention to the foily of placing any more four-inch pipe in the system, which now has over 180,966 feet of three and four-inch mains and laterals. Six-inch pipe carries three times the volume of water that a four-inch does and it costs only is cents a foot more taid. After being in service three or four years, lime incrustations an inch in thickness form, and this leaves the capacity of the pipe so small that it is unserviceable in times of scarcity or when a fire breaks out in districts where the pipe system has been so faultily constructed. The committee concurred with the engineer in short order.

SIDEWALK AND STREET PAVE-MENTS.

To street committee agreed to favorably report to the council the recommendations of the board of public works for the providing of ways and means for roughening slippery sidewalk pavements before frosty weather makes pedestrian travel unsafe over certain stretches. The committee will favor the expenditure of \$1,000 for this purpose.

The committee postponed consideration of the board's recommendation for the letting of contracts to repair street and sidewalk pavements which are damaged and becoming unsafe and for which the periods of guaranty under the construction contracts have expired. With reference to the repairing of the pavements on Main and First and Second South a streets by the Culmer-Jeondings Pavins company, preparatory to the final acceptance of the work, the committee voted to ask the council to grant the board's request for authority to employ a competent and trustworthy inspector at a salary of \$2.50 a day to see that the repairs work is satisfactority done.
